Intuit, Senior Product Designer

San Diego, CA, Sept 2023 - Present

- Led "OMNI," a 2026 platform-wide Connection Hub initiative, evolving "manage my linked accounts" into an agentic-ready hub for human and AI-agent management of bank connections, 3rd-party apps, and MCP tools — shipped across QuickBooks, TurboTax, Intuit Intelligence chat, and Credit Karma.
- Shipped "Reuse Connection" for Credit Karma — available to its 40M+ monthly active members — letting users reconnect a previously-linked bank in one click to see net worth, account info, and spending; helped Product secure contracts extending the same pattern into AI interfaces like Claude and Perplexity in 2026.
- Led research and design for multi-channel document import across major financial institutions (BMO, Fidelity, Schwab) — partnered with my PM to win Senior VP prioritization and secure long-term institutional contracts.
- Own the end-to-end bank connection experience — education, error states, and a documented design framework — partnering with engineering and PM to govern consistency across Intuit's connection surfaces.

Route, Senior Product Designer

Santa Monica, CA, March 2021 - July 2023

- Led designs and experimentations in close collaboration with Engineering, Data, and consumer success, grew in-app shopping engagement by 20%, increased social sharing by 200k, and drove 70k App downloads.
- Scaled design system, delivered animations, and led accessibility design.

Composite Apps, Product Designer

Irvine, CA, May 2020 - March 2021

- Designed healthcare SaaS platform for the VA and 50+ hospitals, led design handoffs cross time zones.
- Shipped iOS and Android vaccination appointment App, successfully scheduling 150k+ COVID first responders.

Education

University of California, San Diego, B.S.
Human Computer Interaction with a minor in Computer Science

Internship

American Express
Undergraduate UX Design

Academics at UCSD

Comparative Cognition Lab
Student researcher

Cognitive Science Department
TA for *Statistical Analysis in R*

Leadership

Co-led an AI-native design & product hackathon at Intuit

Active speaker & contributor, org-wide design skills lunch-hour series

Skills

Journey mapping

Rapid prototyping

Usability testing

Heuristic evaluations

Competitive analysis

Data analysis · Amplitude

Figma · Adobe Creative Suite

Python · HTML/CSS

AI-native/agentic product design

AI-assisted workflows · Claude · Lovable
